The background of the image is a light-colored surface with a complex, organic pattern of grey and white veins, resembling natural marble or a marbled paper texture. The veins are irregular and flow across the frame, creating a sense of depth and movement.

The background of the image is a dense, overlapping pattern of numerous circular and semi-circular cross-sections of wood. These slices vary in size, from small coins to larger medallions, and are scattered across a dark, almost black, background. The wood slices exhibit a wide range of natural textures and colors, including light beiges, warm browns, and some darker, more mottled tones. Many of the slices clearly show concentric growth rings, indicating their organic origin. The overall effect is a rich, textured collage that mimics the appearance of a wood surface or a collection of natural wood artifacts.
